

ecMonitor IoT-101 gateway device comes with Ethernet and WiFi connection. It has 6 x RJ11 sensor ports for different sensor connection, such as temperature & humidity, water leakage, power failure, dry contact, door lock, etc sensors. It also has 2 x RJ11 output control ports.

Hardware

Casing	Material: ABS
Dimension	260 x 160 x 45 mm
Operating Temperature	-30 degree celsius ~ +60 degree celsius
Storage Temperature	-40 degree celsius ~ + 75 degree celsius
Battery	2000mAh

Interface

Wifi	802.11 b/g/n
Ethernet	10/100Mbps
RJ11	6 x RJ11 sensor ports and 2 x RJ11 output ports

Power

Main Source	+12VDC
Alternative Source	Li-ion polymer rechargeable backup battery
Average Power Consumption	5W
